There is an urgent need as current ERA funding for the RURP is sufficient to fund only applications submitted through the end of June 30 when the application portal closes. The requested funding would allow the City to re-open the portal for one week in August and one week in September to fund eligible households through December 2022 (as prospective rent is paid up to three months in the future). This extension would also provide more time for the City to establish housing stability services using ERA funds to serve RURP households. Additionally, through housing stability services case management and other subcontracts, RURP households will be connected to jobs and job training through the American Jobs Center. The end of the relief period through December 2022 would also coincide with the planned start of Oahu Back to Work job training in January 2023. The requested funding would allow the City to re-open the portal for one week in August and one week in September to fund eligible households through December 2022 (as prospective rent is paid up to three months in the future). This extension would also provide more time for the City to establish housing stability services using ERA funds to serve RURP households. Additionally, through housing stability services case management and other subcontracts, RURP households will be connected to jobs and job training through the American Jobs Center. The end of the relief period through December 2022 would also coincide with the planned start of Oahu Back to Work job training in January 2023. In the event the City receives additional reallocated ERA funding, OER could return an equal amount of funding back to the SLFRF. | 31,221,625.28 | 14,674,163.88 | 16,547,461.40 | 12 |
